

Food 4 Future – Expo FoodTech 2024: Bilbao Foodtech World Summit

From 16 to 18 April 2024, Food 4 Future offered in Bilbao three days of interesting discussions and innovation on **new trends and more sustainable, healthier and affordable demands**. 287 exhibitor firms presented at the BEC-Bilbao Exhibition Centre the innovations that are setting the roadmap for the sector in terms of sustainability, machinery, safety and food science in all its segments.

Food systems are facing great challenges to achieve a better future for the food sector, Food 4 Future aims to be the platform that annually provides FoodTech solutions to improve business competitiveness. Some of this solutions are covered in the **I-RESTART project**, such as: upskilling and reskilling workers; intersectoral skill transfers; increased attractiveness of the sector to youth; digital transition; partnerships between learning institutions and companies.

Some of this solutions are covered in the **I-RESTART project**, such as: upskilling and reskilling workers; intersectoral skill transfers; increased attractiveness of the sector to youth; digital transition; partnerships between learning institutions and companies.

The **Spanish Food and Drink Federation**, together with the Technological Platform Food for Life Spain participates as partner in this relevant event that shares innovation in the agri-food sector, showing new ideas, projects and results in a participative and collaborative environment.

FIAB had the opportunity to **share information about I-RESTART project results** during this 3-days event, with actors from the industry, press, policy makers and general public.
